Colorado Springs, Colorado.

Dear Major Hungerford:-

Your letter came night before last and this is the first moment I have had to answer it. I may add that I have been meaning to write to you ever since I got back, but lots of work plus Kansas heat had me down for the first few days of readjustment. The heat is something, and the change from my air conditioned dark room to the factory at 105 or out doors at just about the same I found such a shock that at first I wasn't sure that I could stand it. A sudden change of 30 to 35 degrees when you have been working in humid heat is pretty severe. However, the last two days have been a little cooler or rather less hot and also I am getting used to it, so I guess I'll make the grade for the rest of the summer.

First about the car. Mr. Ross the auction man knew two people who were interested in it. Also the Brookside Garage, the man who had just done the work on it. All three were ready to go for better than \$100. I feel personally, that I should like to have Ted have it. I wish I could give it to him for he did a great deal for Dad this last two years, and his kindness was very great. But until things are settled up I suppose it must go to the highest bidder. I am sure that Ted is right about the motor. I have a somewhat vague memory of his loaning Dad one, and I hope you have already turned it over to him.

Our last day in Colorado Springs was a very full one and as I had thought we had pretty well gone over everything. We went to three places about the wearing apparel and could not even get offer of anything. So we gave a lot to the Nation Army and some things we left with Miss to give to needy folk she knew could use. A few things we brought here.

Baroni offered only \$50. for the wood
Fowler. He said he knew it was worth much
but it would take him a long time to use
Francis is going to see the parties here
Dad last winter and will let

you know the result. It is hard for either of us to get in to town during business hours and it may be some several days before it is accomplished

I enclose a few bills which have come to me. And here is a statement of what I have paid out in addition to the Law bill a receipt of which you have in the file.

To	First National Bank for checks which they paid.	\$29.74
To	Edith Munro for last few days board	7.00
To	Edith Munro for two chks which has been returned	20.00
		\$56.74

It seems to me that I gave you part of this, but now I am not sure. I enclose a duplicate key to Stall No. 5 at Donald's barn which has some of Dad's things, but I doubt that there is anything there that you need to be bothered about. The key to Stall No. 3 (in which are mostly my things, some of Miss Forster's and mine and the tools that I want to keep), is in the hands of Clem Brown. I have a duplicate if for any reason it should be needed, but the one that belongs to Donald is with the Browns.

I do hope that all this is not going to be a lot of endless work and bother for you. If there isn't going to be enough money to get every thing settled up, let me know and perhaps I will have saved up some more by then. Herewith I enclose the Aug. payment on my agreement with Dad which I hope will pay up the current bills.

I hope Strangs are not running up a big storage bill on the car. One thing we never were able to find and I would appreciate it if the car could be thoroughly searched again, was some flat silver, spoons, forks, etc. which Ted told me Dad took away from there a short time ago in a red plush bag. There were nowhere to be found and I would like to find them as they are part of my own set.

With best wishes to you and many thanks for all your kindness and effort,

Sincerely yours,
