Miss Laura Gilpin
Boeing Airplane Company
Wichita, Kansas

Dear Miss Gilpin:

By this time you have undoubtedly obtained some fine photographs at Boeing. I would like to have a chance to see some of your work. I am planning a special photographic exhibition covering the subject of science and industry, to be held here in the Museum within a few months.

I am particularly interested in obtaining photographs showing dramatic composition, photomicrographs of metals, unusual industrial X-rays, work done by the electron microscope, etc.; also there are possibilities in the field of polarized light, infrared and ultraviolet photography as applied to industrial research which may be available. I am principally interested in showing some of the new photographic forms which are coming out of this new photographic field.

If you can send me prints to look at I can return them to you very soon, and later arrange for any final exhibition prints.

I shall look forward to hearing from you.

Cordially,

W.D. Morgan

Willard D. Morgan
