179 WEST MADISON STREET
CHICAGO 2, ILLINOIS

OFFICE OF Charles Bass, President

PHONE State 7410-7411 CABLES: Defranne

July 25, 1945.

Miss Laura Gilpin,
P. O. Box 448,
Colorado Springs, Colo.

My dear Friend:

I have written to a cameraman friend of mine in New York asking him to send me one of the professional changing bags and when you get one, you will have one that is not listed in catalogs as the average changing bag listed today isn't worth owning. So I hope to get it for you as quickly as possible and will charge and send it to you.

In the meantime, have managed to find pictures of both the Century and the Deardorff which I am inclosing herewith. An AA-5 priority will get either one but there will be a delay. The higher the priority the shorter the delay.

The Deardorff factory has been just swamped with business. They are, at best, limited capacity. So please try to get the highest priority you can.

Standard Agfa holders will fit both the Century and the Deardorff. The Deardorff camera weighs more than the Century. And frankly, I think you might like the Century very much.

Now there is one more thing, Miss Gilpin, just the other day I made a trade offer on a used Century which is supposed to be in good condition. Would you be interested?

Awaiting your further reply, we remain

Yours for Victory,
BASS CAMERA COMPANY.

CB:A

President.
