Colorado Springs,
July 18,

Mr. Leon Daniel,
PIX, INC.,
250 Park Ave.,
New York City.

Dear Mr. Daniel:-

Monday was a cloudy day, we seem to be having a very rainy summer for us, so I did not go out. Yesterday I went back to the McMahon ranch as being the nearest and the one where I could count on interested cooperation. I hope these additional activities will suffice. Cattle are not fed at this time of year as they are all out on the summer range. But these routine jobs I hope will fill the bill and I hope the pictures will please Mr. Hibbs.

It will be Wednesday next before I get away. I want to process some Agfa Color before I go. I enclose herewith four Kodachromes which I made at the McMahon's the first time. The branding shots are a little under exposed as it is necessary to shoot fast. My judgement on Colorado light is returning to normal and the next ones will be better. I hope these are worth sending in, if not return them and I can make some use of them here.

I did not ask you that last day in New York if both you and I get credit for the pictures in the Post. I trust that we do and had more or less taken that for granted.

In cases such as the McMahon's set of pictures, would it be possible for me to have you make them a set of prints? Their cooperation was very genuine and I promised them a set. My present set up makes it difficult for me to make them until I have adequate dark room facilities again.

I have taken another day here to do this last set and my expense account is small as follows:

1 day hotel & meals	\$5.00
60 miles on car	3.60
	\$8.60

With kind regards, I am

Sincerely yours,
