New York 17. N.Y.

Dear Mr. Daniel:-

Here is another Kodachrome which has just come in. A young queen of the lettuce crop of the San Luis Valley, Colo. I can send other data to go with it if you could place it with a Farm magazine. I can get a release if you wish to use it.

Most of the color shots I have been doing have been landscape. Will be fixed to process Ansco in a couple of weeks. Have had trouble getting proper filters.

Very truly yours,
