Mr. Cady L. Daniels,
Colorado Springs, Colo.

Dear Mr. Daniels:-

I am in trouble on my old Chevrolet, the knee actions will have to be replaced, and some other minor repairs. I begin to worry about the car lasting me for the remainder of my travels on this book. I now have 119,000 odd miles on the car, and it is 10 $\frac{1}{2}$ years old. Before I go to any great expense, will you let me know at once what the prospects are on a new car or a good trade in if such a thing is possible? I am sure that my Publisher can get me a priority if that will help. I want to know the price on a new station wagon and when delivery could be expected, and also a coupe, a model which would give me room behind the seat to carry my cameras. Any information by return mail will be greatly appreciated.

Very truly yours,
