Oct. 19,
1948.

Mr. George L. Findlay,
Yingling Chevrolet Motor Co.,
Wichita, Kansas.

Dear George:-

Someone sent me the clipping from the Wichita paper that you were now with Yingling. How does it feel to have Boeing finished up?

Herb or someone may have told you that I am at work on a new book with headquarters here for some months. My nolbe Chevy age 10 $\frac{1}{2}$ years (1938 model) has suddenly gotten weak in the knees and I am on the hunt for a new pair. The garage here has tried Denver, and El Paso so far without success and I am wondering if by any chance you have a pair in Wichita. If you have would you wire me at once? I hate to spend very much on this old car, for it now has 119,000 odd miles to its credit nad has certainly given me wonderful service. And I dont know whether it do any good just to ask about a new car or a good used car! What I want and need is a station wagon, but would take a coupe, a model that would carry my camera behind the seat and then with good back space as well. I guess it doesnt hurt to ask. Any information along all lines will be greatly appreciated.

My job is very big one, but very interesting, and I need to be on the road this minute, but am a little afraid to go too far afield until the repairs are made or I have something new in view. Will you kindly telegraph me, collect, just what you could do from Wichita?

With best wishes to all my friends in Wichita, and hoping for some sort of favorable answer to this, I am

Very sincerely yours,
