

614 Alameda Rd. Santa Fe. N.M.

Oct. 30th.1945.

Mr. George L. Findlay,
Yingling Chevrolet Co.,
Wichita, Kasas.

Dear George:-

The Knees finally came Saturday and were installed yesterday, and now I feel young and sprightly. The old knees, what is left of them, are being shipped to you prepaid by the Santa Fe Motor Co., and I trust will reach you in good stead. I enclose my check for the balance due you, \$20.80 and again thank you for your prompt action.

I am off t-morrow for a trip to The White Sands National Monument, a region I have long wanted to see. How strange that part of that area should be so closely connected with the war and B29, the testing ground of the Atomic Bomb. They are still making bomb runs down t ere, and the area is closed certain mornings from 6 A.M. to 11. Wonder if I shall see B29's t ere! Things are still pretty hush hush up "on the Hill" as they call it. Met a certain freind of mine out there on the street one day.

With regards to all,

Sincerely yo rs,
