Dear Jeff:-

Thank you for your letter and the enclosure. Here are the documents. This new form sounds very formidable. However, I trust it will not be long before I can pay it off. The car situation is not too good, but I have finally located needed parts in Wichita and hope that the repairs will see me through to spring when I hope I can get a new car. I'm going to put in my order any way and hope for the best. One thing I can fall back on is that my cousin here is going east for the winter and I can rent her car for the interim if I get stuck with my own.

With best wishes and thanks,

Very sincerely
