Dear Miss Gilpin:

In a day or so you will receive an official order from Colonel Gregg, our Director, for 1 8x10 glossy print of a dramatic view of Cliff Palace. If possible, I would like to use this as a vertical frontispiece for this book which is 6 by 9 inches.

Unless you can furnish a glossy print of the White House, I think we should skip that part of the order, although I'd really prefer that as a frontispiece to Cliff Palace.

Please do not fill this order until you hear from Colonel Gregg.

Sincerely yours,

Paul S. Martin

P.S. Thanks for your suggestion. I wish we had some better pictures of Chichen where I used to work; but the Museum prefers to own negative, as well as print & we can't afford those at present.
