Mt Desert, Me

Dear Laura.

I haven't heard anything about your new car so have been assuming you are having the same luck as I. I have had an order in for a station wagon since last September and so far no dice. When you get something definite on it drop me a line.

I hope the Rev friends working is coming along in good shape. I can't imagine a more interesting job to tackle but a big one and a real contribution.

All goes well with us here. The trip up from Florida was fun and we were only held up twice the whole time by weather which is unusual.

I've been very busy making a garden
and building Comfort heaps which is a real
job.

I am glad to hear Berene is so much
better.

Much love from all of us

Devotedly

Donald

P.S. Enclosed is a card just arrived
