Dear Sam, -

I think I can swing 1000.00
towards your Station Wagon. 'Well this
put it within reach. I look on this as
a Capital investment for your business
and would stick to the Sta. Wagon idea
as I don't think just a Touring Type
is what you need. I think its an
inflated value but you cant afford to
wait until things bust next time which
may not be for two or three years and
it will have paid out by that time.
Give me a weeks notice when you will
need it so that if I havent it I can

raise it. I hope they don't hold you up
too long but it doesn't seem very hopeful
on deliveries from what I hear.

All are well here and busy and all
send their love

Affectionately
Donald
