Dear Mr. Daniel:-

Since writing you the other day about the Yucatan pictures which I hope reached you safely, I have hearing all about the plans for the coming big Celebration here in San Antonio Apr. 21-27th for the 100th anniversary of Texas Statehood. There will be many colorful events on the river etc. etc. Plans doubtless are already made for coverage of it, but in the event that you could use a series of mine, I will gladly come back here for it. In the mean time I shall be working down at the mouth of the Rio Grande. You can reach me for the next week at the Madison Hotel, Harlingen, Texas.

Should anything come of this, could you send me sufficient Kodachrome to cover it, two or three dz anyway. There are none to be had here right now. My sister-in-law at the above address will know my whereabouts after April 7th or 8th. I have met a number of the people taking active parts in the Fiesta and it is an event that is being worked up here with

the best efforts and imported talent.

You doubtless recall the article on San Antonio in the S.E.P. a few months ago. The little river will be used to great advantage for this event and there is a procession to the Alamo and many other historic events.

Hoping that this may be in time for something worth while, I am

Very sincerely
