Dear Dr. Morley:-

Your letter of the 30th reached me yesterday, the 2nd, pretty quick work! I certainly do appreciate your efforts in my behalf and I hope the exhibition will justify it. I have some shipping cases which will hold about 50 prints, and I think one of these will be enough, I shall make a careful selection. I am writing to Don Antonio Lopez just as soon as I finish this to you and will give him all the information he needs. It will be fun having a show in Merida.

I wish I had asked you about places to stay when I saw you in Santa Fe. As the Barbachano lodge was the only place when we were there before I did not know that there might be a choice. However, he has made me a discount and perhaps I can do some work for him to pay our bill. (I have been doing that a lot on my Rio Grande travels) and in any event I expect that from the business point of view it will be well to be under his guidance as I look to him to help sell my book when it is out. It will not be long now until Roberts and I are on our way. I get all excited over the prospect.

My best greetings to you both
Most gratefully
