Dear Miss Gilpin:

Pardon this tardy reply to your nice letter of December 4, which reached me just before the Christmas holidays, and has awaited answer here on my desk during my absence.

In the past we have not handled your book "The Pueblos" in our gift shop here in Mesa Verde National Park. Later I hope to have better facilities for display and sale of books and pictures, but in view of our limited space, it has to be devoted almost entirely to Navajo silver and rugs. However, we do stock a few of the better items, and I would be interested in seeing a copy of "The Pueblos".

Also, I am prompted to ask if the illustrated booklet which you published several years ago showing Mesa Verde National Park scenes is still in print, and if so, where it could be obtained. I do not have a sample copy available, so if this is still in print, would suggest you send me a copy, along with any other such material which may have come out under your authorship.

With best personal regards, and wishes for a happy, healthful, and prosperous 1946, I am

Sincerely yours,

Ansel F. Hall
