Dear Mrs. Gilpin:

In reference to your letter of November 6, HOLIDAY also returned to us the first Kodachromes, but they are now with another client. The ones which you sent us today and which look good also have been forwarded to that same client. I agree that the 5 x 7 Kodachromes look more impressive.

There is one thing I would like to point out. When people want pictures of Colorado or New Mexico, they don't want to see trees alone. They would like to see rocks or the desert or something which would add to the atmosphere. We will let you know soon what will develop.

Sincerely yours,

PIX, Incorporated

P.S. I don't understand the reason for the scratches on the one Kodachrome we returned, because we didn't take the protecting slide off and we don't think our client did it. We are sorry anyway.
