Santa Fe, New Mexico

Dear Laura:

Sorry to be so slow in answering your letter of the 20th., but Miss Titus has been unable to locate copy of folders of Forest Park Guest Ranch. Job tickets are only stored for five years. Could you send a copy to identify old cuts?

A $4\frac{1}{2}$ x 6 inch page booklet of 8 pages on a good enamel book paper would cost about \$ 2.95 a page in 500 quantities or \$ 3.75 a page for 1000 copies . Ten pages can not be used in a stitched booklet unless a 6 page fold-out signature is used which increases cost. Four page signatures are customary units of increased paging.

Johnson can make new cuts and will give cost when sizes are specified.

Green text paper may be secured now, I think for stationery and pens. manufactured in Denver. If you will indicate quantity wanted, will make inquiries at once. In special made envelopes 5,000 is the most economical break, however, smaller quantities are made.

When you decide on exact specifications will give a more intelligent quotation.

Have I overlooked anything?

Cordially,
