Colonel H.C.Geo.,
Los Alamos,
New Mexico:-

Dear Colonel Geo:-

Your letter of the 16th reached me only yesterday. I appreciate very much your interest in my request, and I am, of-course, greatly disappointed in your answer, though I know there must be good reason for it. I appreciate your reference to the other photography that has been done at the location, but this book is primarily a book of my photography and the work included must be my own. I shall have to insert where I had planned this picture, another one of the Jornada which I made further south. If at any time within the next few weeks or even the next three or four months, I could still insert the picture I want, it were possible for me to receive permission, as the book will not actually be on the press before fall.

Thanking you for your interest, and hoping that at some time in the future it may yet be possible for me to do this, I am

Very truly yours,
