

Nov. 14, 1947

Dear Jean and Gretchen:-

Here at long last is a dummy and some new script for the folder. This works out nicely using all the new and old pictures and gives room for the enclosed text as well. You will note the placing of the three old pictures which form the inside of the old folder. These plates are mounted all on one block and must be used that way. By inserting the new pages, a different arrangement may be had which varies the presentation. The pictures are what people generally want, and I hope that you will feel that you can use all of them. Please be critical of the text and make any changes you wish. You may want to enlarge on the meals at the Lodge etc. which can easily be done. Just send me the gist of it and I will work it in.

The cost of this new folder as per the dummy enclosed herewith including the cost of four new halftone plates, the new pictures, everything complete for 1000, \$125.00

The printer has written for quotations on both envelopes and stationery which should follow this in a very few days. Instead of giving this stationery to guests, I wonder if you could have it at the Lodge for sale. This would help you out.

I hope that this will meet your requirements and that you will feel that this larger folder will bring its quick return.

With best wishes to you all,

Most sincerely
