The Meriden Gravure Co.,
Meriden, Connecticut.

Gentlemen:-

My post card business is at a point where I wish to push forward with both new sets and with re-prints of old cards provided that it will all work out satisfactorily from a business point of view.

At this time I am in need of sufficient re-prints to make up one printing, and this will be followed very shortly by a series of new cards.

It looks as though I shall take up permanent residence in Santa Fe and I am most anxious and able now to push this venture.

As prices may have changed since last fall, I should like a new quotation from you in order that I may make definite plans for future work. On hearing from you I shall place a re-print order at once.

May I ask also if you have as yet developed any satisfactory reproduction method that is practical from a business point of view in reproducing color transparencies. You have doubtless seen the ones done in California.

Sincerely yours,
