Dear Mr. Hegley:-

I have your letter of May 26th informing me that you are returning the portfolio of photographs of the ranch. This comes as a great surprise to me for I understood this as a definite order when I talked to you over the phone. In view of the fact that I made the originals for my book and that both you and Mrs. Forker wished sets of prints, I made my price as low as I possibly could. I am afraid that you must not understand the cost of production of work of this kind. There are quite a few pictures in the set for which I would not charge less than \$10. for a mounted print, and I made a price on the whole set, following my conversation with both you and Mrs. Forker.

I ordered the portfolio and had it matted specially. Now I do not know what I can do with this unless you can use it for some other purpose. I regret exceedingly that I did not volunteer a price to you at the time, but when you did not ask me for it I presumed that my regular price would be satisfactory to you.

Very truly yours,
