Dear Miss Gilpin: ~

Each year we issue an Indian issue of the above Magazine and our subscriptions by public school and parochial schools totals about 22,000. There is an increasing subscription among general subscribers outside of the schools.

Could you send me a group of your photographs relating to the Southwest Indians - their ceremonies and home life - their artcrafts?

We will give credit to your studio or name whenever the photo is used, and forward checks promptly.

I am a member of the Laboratory of Archaeology - have been for many years - also of the Southwest Museum conducted in Los Angeles by Dr. Hodge.

Kenneth Chapman and Dr. Mera are my good friends "tops" as men and archaeologists.

Sincerely Pedro de Lemons
