Mr. Howell Barnost,
55 Sona Plaza
Santa Fe, N.M.

Dear Mr. Barnost:-

Here is the check for the insurance on my new camera. The 50 mile coverage in Mexico will be sufficient for my needs. However, I am wondering if I should take out a floater policy, or rather add to the one I have already for anything carried in my car. My reason is that my car was broken into yesterday, or rather the evening of the 26th. It was parked in front of Mr. H.S. Griffin's house, where I am visiting, carefully locked. The thief broke the little ventilator window and stole a suede leather jacket, that was all, though there were other things in the car. None of my cameras which I never leave in after dark. Does my present car policy cover the broken window? The repair was \$4.00 for a new glass installed. Would you let me know what the additional cost would be for such coverage. I shall be here another week or more.

Very truly yours,
