Mr. Carroll L. Tyler,
Atomic Energy Commission,
Box 1539
Los Alamos, N.M.

Dear Mr. Tyler:-

Your letter of yesterday has just been received. I am very pleased that you will grant me permission to make the picture near TRINITY. I am writing to Brigadier General Montague and will make arrangements with him for the best time to go down to the site.

Provided that I am able to get what I have in mind in the way of a picture, this will prove a climax in the book, and I shall be very grateful to all concerned. The text for this is all written and the entire book in the publishers hand, but there is still time for an exchange of pictures. The one I sent in was made just below TRINITY, east of Elephant Butte Lake.

With many thanks and assuring you that all precautions will be strictly observed, I am

Sincerely yours,
