Mr. Webb Young,
Santa Fe, N.M.

Dear Mr. Young:-

Some weeks ago, I saw your father in the post office and he told me you were through with the color transparency and would return it to me. I have not yet received it and I imagine that it has slipped your mind. I received the copies of the folder and thought the reproduction quite good, and it was interesting to see one of Colorado's famous mountains moved to New Mexico.

You will recall that at the time you came to see what material I had on hand, that that I named a price of \$75. on that transparency. Your father told me that owing to the small circulation that \$40. was what he usually paid under those circumstances. Now that this has appeared in two very large national sources, don't you think that that it is worth the original \$75.?

If you have any other color work you wish done, I am now set up much better to go ahead with this line of work.

I would appreciate the return of the transparency for I frequently show them on the screen and this one adds to my portfolio.

Very truly yours,
