

Sunday evening, 1948

Dear ha-da-

We're delighted that you'll come and are immensely impressed with your Temple. (At the moment FMF has our precious copy - just as a teaser). Hastings did a good job with the reproductions and Keda did a better one with the photos and text. I can't read it all yet but I did read the material on the Maya calendar, which has always seemed complicated and difficult to me. In one paragraph you gave a clear concise explanation of it which makes it understandable to me for the first time - so you see, you're a good teacher, Miss Neefsean. Over many many thanks to you for our inscribed copy; we were going to beg the inscription, but not

The "old guard" here at F.R.S.

Please tell me, because I'm not at all certain that I've struck the right ones.

It will be grand to see you and your room will be ready and all fees waiting with warm welcome and wagging tails.

Much love - and in a hurry, as you've probably guessed.

Hazel.

Sunday eve.

the books! That is a bonanza of a major order. How old is hope thousands of people buy it. It should go like hot cakes at Chicken. Will they have a good supply at the Lodge - I hope? It's very exciting and you are to be congratulated (which we do with fervor and enthusiasm) on an excellent job.

Please tell Betty we're sorry she'll not be coming this time. Hope she and the job get together; then she must come up in May and Ted see all about it.

We'd love to have a small party of your closest friends (maybe next Sunday) while you are here. Tea and/or highballs, probably late in the afternoon. Whom would you like? Suggested list:
