

My dear Laura May I tell you
what intense pleasure I am
finding in your beautiful book.
I have fallen completely under
its spell - for with it you have
won a spell you know. Especially
for those who love the West.
It is a glamerous book. The pictures
are so lovely - the text so interesting

and the book itself very elegant. It
is in itself a real poem in addition
to its pictorial & historical values.
The Lafts seemed delighted with
the volume I gave them and praised
it repeatedly. I do hope you may
have satisfactory returns from so
praiseworthy a venture.

My love to Beanie as well as myself
yourself. Wish I might have more
than a passing glimpse of you both.

Cordially & sincerely yours
Eliza R Carlisle
