Sept. 28, 1949

Dear Laura:

There is a new program on KRDO, our local radio station, conducted by Mrs. Ripley, the wife of a doctor from New York who has just come to town. She interviews artists, writers, etc. and plans to have you on her program on Monday the 17th at 2.30. I hope that will be a convenient time for you.

The program lasts half an hour, and she would like to start it with a short talk based on your personal history, such as where you were born and grew up, how you got started in photography, your teachers if any who influenced you in that direction, and any other details which you would care to offer. Also she would like to have you decide on a few questions which you would answer in the interview, mostly in regard to the preparation of your book, and your experiences and comments along that line. Your part of the program would probably take about twelve to fifteen minutes.

We are having a fine number of orders for RIO GRANDE, and are looking forward to your being here.

Sincerely,

Edith
