Dear Laura:

Thank you for sending the biographical material and the lovely print, which are being used in the newspaper. We have our copies of your book, and are thrilled with it, as no doubt you are too. I think everything is arranged for Monday. If you had time to send a list of the questions for Mrs. Ripley to use during the radio interview, it might be helpful to her; as a matter of fact, Mrs. Ripley has just been in talking to me, and she says that she does not need to see the questions beforehand, as long as you know what you are going to give for answers. You will probably be seeing her sometime before the program anyway.

We shall need the prints just for the day, and should love to have some from your show. You did say that I could have a few for the window, and I hope I can keep those a little longer. Monday morning will be all right for the prints to be put up. We have been trying to get a copy of the New York Herald Tribune which had the page announcement, but haven't seen it yet.

We are looking forward very much to having you here.

Sincerely,

Edith
