Miss Laura Gilpin,
Box 1173,
Santa Fe, New Mexico.

Dear Laura:

I got your letter this morning and have already written Mr. Bondurant to find out what is necessary for me to do. Thank you so much for all you have done about all this.

I have reached the end of a cycle. I have given up my apartment and am leaving this afternoon to visit in Corpus with Mrs. Overstreet's niece for a few days. However, send all my mail to 524 Fourth Street, and it will be forwarded to wherever I may be. My idea in going to Corpus is to get work with the Educational Department there, because I know two Principals there, ~~at this school~~, and I have a better chance there than I would here.

I spent the last week with Dodie, who left for California to pick up an automobile that Don had purchased before his death. She's coming back by way of Santa Fe, she thinks, and will look you up.

Tommie is in Montana and I really believe the child has at last found himself. He is with a manufacturing Co. of storm sash and doors, and when he gets a house and is established I may go up and join him, but I certainly am not going to go until I know he is completely stabilized, because I would hate to be stranded in a strange country. I will write you later on, but in the meantime you may write me at 524 Fourth.

Love,
Edna
