Dear Laura.

I saw a reproduction of one of your lovely photographs in the Christian Science Monitor recently, and note for your address -

"General Delivery, Santa Fe"

seems somehow untrustworthy, and while there is much I should like to say I shall wait till a line from you assures me that a letter will reach you there - And I am afraid it will be a long one -

The sight of your name
brought up many happy mem-
ories -

Well then, Sam (and how
ever, thro' all these silent
years) your mother's loving
friend. And yours.
