Colorado

August 9th - 1950

Dear Laura,

We think of you with envy as being at Wide Ruins to-day and can scarcely wait to see the pictures that will come -

I can't tell you how much Seth and I (and Newell Price) enjoyed that lovely luncheon with you and Peter in your darling house - Ruth says that goes for him too. We should not have stayed so long but your make time fly so quickly, that we were horrified to find it after three o'clock when we left. I just hope that we didn't set you back on schedule but we did enjoy every moment, as we always do.

Now as to orders -

I would like 10 copies of the Rio Grande please, if possible by Sept. 20th, if not, as soon as you can conveniently manage.

2 sets of all of your post cards (except those at the Navajo Museum which I have).

One \$15 print of the Navajos in the covered wagon - if possible by Christmas - this will be my gift to Seth, so that if you are too pressed for time and it comes later it won't matter too much.

The post cards too can just come when you can conveniently manage -

One copy of the Pueblo Book
One copy of the Guatemala Book.

I wish that you and Betsy could get here to Tin Cup - If

is very different from the existing
~~beauty~~ of New Mexico, but as I
sit here in the cabin looking out
to the big range shadowed with
clouds there is a peace that is
hard to beat and very hard to find.

Then - when April comes - a bad
month in New Mexico for scenery or
Navajos - couldn't you two put
the camera in the car and come
to us? The woods will be a-dry
with dogwood and red-bud and
you might get some interesting
and very different shots. We will
put you on the trail of some
nice old Virginia houses and gardens
too - Anyway we would like
to have you both and will teach
you up under the trees where
you can be as independent
as you like - both of you -
love to you both ~~from~~ us both -
Carol

P.S./

Please send all postages and
all bills to the school address

P.P.S. I hope that the rug business
was not too much of a chore —
Thank you!
