Miss Margaret F. Cramer,
The Potomac School,
Washington, D.C.

Dear Miss Cramer:-

The long delay in your copies of the RIO GRANDE has been worrying me considerably, but the answer is that the first edition is gone and the second is on the press and not yet out. The reason I have not written is that first I have been away and expected to find the books here on my return. The publisher had written me that they expected the second edition early in September. Then just yesterday I receive news that there have been delays on paper delivery and that it will be out soon. In the meantime, I am sending you my last copy of the first edition for your desk and the remaining six will follow just as quickly as I receive them. The desk copy is gratis with my appreciation of the school's large order and the fact that you wish to use it in teaching, a fact which pleases me no end.

My regards to you all,

Sincerely yours,
