Mr. Cady L. Daniels,
Colorado Springs,
Colorado.

Dear Mr. Daniels:-

Recently I heard that Chevrolet has come out with an all metal station wagon. I have been glad that I had not gotten the older wood body three years ago, as they require so much care in this climate and do produce so many rattles. However, the new one sounds very much more suitable. Can you send me the specifications, a picture, etc of the new one. Also, the time required for delivery, the present cost, turn in value of my 1942 two door sedan. I believe that should make a change this spring. Also will you send me the terms with the turn in of my old car, say \$500. cash, and the balance on monthly payments.

Hope all goes well in Colorado Springs. With best wishes,

Sincerely yours,
