Dear Jan:-

Home again and your letter waiting. So glad you like the pictures of Neil. I shall be happy to make the prints as you suggest with the exception of #2. It would be a very difficult task to take out your head, it would always show and would never be satisfactory. I am only sorry that you didnt like it including yourself. It is difficult to judge from the little proofs. One of those that Miss Christen chose proved to have his eyes shut when it was enlarged. While the initial work on the little ones with the miniature camera is quick and comparatively easy, I find that the darkroom work is much more difficult to get adequate results. and, for instance, had I had a larger camera I should have seen the belt strap that looks like a tail! It will be difficult to remove but on the small item I think I can do it.

As to prices, \$3.50 on the small prints mounted and \$5. ea. on the larger ones. This would come to a total of \$47.50 if we include #2 as is, or \$44. without it. I can make these for you at any time now.

It was so nice to see you and your lovely boy. I hope you have a successful winter and that you will be out again next summer.

With best wishes, I am

Sincerely yours,
