

My 18,
1950

Mr. Van L. Johnson,
Archaeological Institute of America,
Cambridge, Mass.

Dear Mr. Johnson:-

My apology for being so long in answering your last communication. The truth of the matter is that I have been in a quandry as to the advisability of sending in the questionnaire this year. Since my previous letter, I am signed up to produce a new book and I have reached the decision that it would be very unwise to attempt another responsibility. This new undertaking will lend itself to valuable set of slides at the same time, and in another year perhaps I can have two or three series of slides with a lecture to offer you. I shall endeavor to have all such material ready so that in 1951 I will be able to make you a definite list.

Thanking you for your interest, I am

Most sincerely yours,
