Dear Ruth:-

A letter from Miss Allen yesterday is a bit upsetting about the print going to Austin. First as to space and facilities etc. The she wishes to know if they can show only the Texas prints? I do not want to offend Miss Allen in any way, but I am definite about showing ANY one section to the exclusion of the others. The whole point of the show, the book, and everything I have tried to do, is to educate each section about all the others. I am quite willing to show a fewer number of prints, but they must be from each section from the Source down. I have written to Jerry to hold the prints until I hear from her. If she has space for only a few, I would rather make up a new show of duplicates, for the show now in Dallas is scheduled for other places and I do not want to get it out of order. I hope she will understand.

Two other items to mention. When you go to Colorado Springs to see the school, be sure to ask for both Mr. and Mrs. F. Martin Brown, my particular friends there. You will find them delightful and it will mean a lot to meet some of the wives of the faculty I am sure. Next- I have never recieved the Herzog book. Do I not remember that you said it had been sent? Can a tracer be put out for it? I dont want to lose it. Sorry to hear that the Border Issue is postponed, but those things do happen. Did Mr. Maxwell like my article at all? Perhaps I can work it further on it, with more time.

I hope this finds all of you well, and with the best of wishes,

Most sincerely
