Dear Mr. Ord:-

Some days ago Mr. Albert Willis came to see me regarding some color transparencies. In going over my available material, he suggested some which he thought would interest you. I did not know that you were in the market for color shots. I am sending you ~~twelve~~ ^{three} 3 1/2 x 4 1/4 and three 5x7s. The 3 1/2 x 4 1/4s I have had mounted for my projector, therefore you will find one end trimmed slightly to fit a standard stereopticon.

I hope that there may be some of these that will fit your purpose.

Now that my RIO GRANDE book is well launched, I shall get back into color work, and should there be anything that you specially need, I am equipped to work in several different sizes, 8x10, 5x7, 4x5. I am now processing my own Ektachrome and find it very worth while doing so.

Sincerely yours,

Laura Gilpin

Dear Miss Gilpin:

Thank you kindly for sending in the above, however, at present we are pretty well filled out in our post card line and consequently are returning these transparencies under separate cover. If we should need some specific subjects we shall be only too happy to have you take them for us.

Congratulations on your book, there is some wonderful work therein.

Sincerely,

Ralph J. Ord
