Dear Mitch:-

Herewith are the petroglyph prints and negatives, the eight as agreed upon, plus an extra and a publicity picture of Agi. Should you want more of the latter I can send them later. The petroglyph negatives should enlarge well to any size you wish. I held them a little on the soft side so they will not block, no matter what and they should yield good prints up to any size. I hope you will like them. At first I hesitated to send them to-day knowing that you are in the midst of your very busy week, and then it occured to me that you might want to interest some other museum director in this forthcoming show.

I am sure the conference will be a great success, and I await news of it with interest. Good luck and best wishes,
