

May 5, 1950

Dear Mr. Young-Hunter,

Herewith I am sending you a re-print on the photographs I made for you many months ago. You will recall that I undertook this commission against my better judgement as my 8x10 lens was in the east having a new shutter fitted and also that I did not have a workroom of my own to process the work. You wrote me that the prints were too contrasty. I have recently given these negatives reduction treatment and I send you the results. I sincerely hope that these will be satisfactory, for it is a great distress to me to have any work not to your complete satisfaction.

I am now equipped with a good darkroom and, of course, my big lens and shutter are on the job. If it is not too late, and you wish to have me do any of these over again, I shall be very ready to do so.

With best wishes to you and Mrs. Young-Hunter, I am

Sincerely yours,
