Dear Laura:

Your Rio book came out very good. Hope it will
sell a million copies.

The publishers of the Encyclopedia of Photography want
to make a new set of plates from your "Square Tower House"
color shot...which was used on page 1214 of volume 4. The
inclosed clipping will show you the exact picture.

I hope that you can locate this picture and send it to
me by air mail. After the new plates are made the color
picture will be returned to you.

I am now working on a new Leica Manual edition. Do
you know of any Leica photographers out your way who might
contribute some illustrations?

With best wishes,

Sincerely,

Willard D. Morgan
