

ORCHARD CAMP

SANTA FE, N. M.

Dear Miss Gilpin:—

Fan mail!

I've enjoyed your look over & over so much. We had it for a week & went over & over it. The pictures are beautiful & so many are unique I liked especially that lighted dust cloud over the sheep flock, & the shepherd on horse back with black mountain behind. When I think of the rocks you must have scrambled over to reach your spots - and at the right times too. It's wonderful. It seems hardly possible to speak of style when you wrote relatively so little.

But it ~~was~~ is selective: choice. And most met-
iculously informing.

Some one has probably bought my picture
which was hanging in the museum. A lovely
lady who formerly taught Art at the N.Y. U.
University. I've only had time to do one thing
here & that not very good, but I am encouraged.
— On five years of painting.

Miss Jones has a bad cold — in her several
days this week. We leave to day — our address
is Yarmouth, Maine if you can get that far.

Sincerely

Alma C. D. Rowels.

March 17th '50.

I feel much happier having written this! I never do
write for mail.
