Dear Laura:

Thanks so much for your comments upon the exhibition possibilities out of Santa Fe. I am a little bit leery of the show as I feel that such a group show is apt to be rather weak.

Let me know what happens to the show Agi sends. Am delighted to hear the good news of the book. I think that you can expect to see it go into another edition and probably continue as a study seller, particularly in the southwest. Actually, the book is not one that is marked in a period of time but rather is a complete documentation of the Rio Grande valley and should have lasting interest. Congratulations again.

Greetings from all and let me know how the Agi Sims show comes out.

Sincerely yours,
