Mitchell A. Wilder, Director

Dear Laura:

Many thanks for sending up the photographs of Agi Sims' Petroglyph exhibition. It is extremely interesting but I wonder if it is large enough or complete enough to work out in one of our galleries. Is there any additional material which might be added or which will be incorporated in the event the show travels? While I am not precisely clear on the extent of the show, it impresses me as being rather small, is that true? I presume that the rock material which I see in the photographs does not travel as it would be much too heavy.

In the event that the show is to travel, we would be interested. Would you please ask Agi to get in touch with us when the schedule is to be worked out. I am returning the photographs to you and many thanks for your help.

Sincerely yours,

MAW:jmd

P.S. Had a nice letter from Dorothy McKibben regarding a speaker from Los Alamitos. She is working on our problems - thanks to you.
