Dr. D.G. Cornish  
Laurel Drive,  
Albuquerque, N.M.

Dear Dr. Cornish:-

Mr Meem has requested me to make some photographs of your house when ever it is convient for you. I am sure that you will have heard from him by this time, as he told me three days ago that he was writing to you ab ut it.

If it is convient for you, I can come down next Monday, the 29th. I imagine that I can make the negatives he wishes in a day. I shall try to be at your house by 10 A.M. which will give me morning light for whatever pictures I select for that time of day and then I can finish in the afternoon. As I do not know either your location or exposure, it is hard to say, but I am sure that I can find what Mr. Meem wants either before or after noon.

If it is not convinient for you to have me come next Monday would you kindly let me know? Otherwise I shall be there unless the weather forbids. If for any reason you should wish to phone, my number is 2848R.

Very truly yours,
