Dear Earl:-

I have waited to drop you a line until I had heard from New York regarding the last pictures. I had a wire daybefore yesterday and am pleased and relieved that the last effort brought the desired results.

I cant thank you enough for all your cooperation and patience. Mr. Kerlee wants releases on his own blanks which he has sent me and I enclose an addressed envelope so that you and Jody can sign them and mail them direct to him.

The storm of-course postponed our trip up, but you will see us at the first available moment. Did you get snow as we did? And a wonderful rain to boot. It was grand.

I shall let you know just when I can come up for the color pictures. If I can get away by the middle of the week I should go over to the Navaho country first for perhaps a week, but you will see us before long. And I shall be bringing pictures for Jody and you.

My best to Crissy and Lance and again my heartfelt thanks for your grand help.

Most sincerely
