Dear Sirs:-

I am enclosing the registration card on a new Medalist II. My old one was stolen two weeks ago and the insurance company has replaced it. However, I am anxious to obtain the number of my old camera. I thought I had a record of it but so far have been unable to locate it. I bought it from the Gene Autry Photo Shop in Santa Fe, the very last of June 1950. It would be registered under my name. I would appreciate it greatly if you could send me this number in the event that the police locate the old camera.

Very truly yours,
