

June 16, 1951

Mr. Charles Kerlee,
146 East 56th St.,
New York, 22
New York:

Dear Mr. Kerlee:-

Your letter with check enclosed reached me yesterday. You have certainly been more than generous and I do not think you should send me the whole amount that you receive from Ayer. After all you had to put people in the car! This makes me wonder why sync. flash rigged up inside the car wouldn't do the whole thing in one negative. I should like to experiment with that.

I have ordered the dye transfer prints for the Plymouth people here and they have been very pleased that the black & white is to be used. If you could advise me when this is to appear, they would undoubtedly like to do some local publicity about it.

Any time anything more comes along that can be done out this way, I shall be very happy to do it. I expect to go off on a trip on my Navaho book leaving the end of next week, but will not be gone more than ten days as I am doing some color work also, and I don't dare keep film any longer than that at this time of year. My mail will be attended to here and as far as is possible I shall keep the person attending to my mail informed as to where I can be reached.

With many thanks to you and hoping that we may work on another before too long, I am

Very sincerely yours,
