Dear Mr. Ralph:-

Herewith you will find a selection of prints from my files on Santa Fe Fiesta. Also enclosed are some twenty seven negatives for which I have no particular use and which may be of some use to your research department.

I went down to the bus depot hoping to catch a bus load of children coming down from Los Alamos. There were only two people in the bus and a long line waiting to embark for Albuquerque.

It was a pleasure to have such a nice talk with you during your stay in Santa Fe. I only regret that time did not allow having you out to my home to see the kind of work at first hand that I produce and for a good talk on photography. However, I hope I may have this pleasure in the future.

If there is anything further that I can help you with I shall be most happy to do so. Perhaps some time I can do a real job for you. Hoping that you will find satisfactory material in the enclosed box, and that you will let me know when ever you return to Santa Fe.

Very sincerely yours,
