Jan. 18, 1951

Jan. 18, 1951

Mr. Milo E. Smith,
Union Iron Co.,
Chicago, Ill.
Michigan Ave.

Dear Mr. Smith:-

Mr. H.D. Walters of this city has turned your letter over to me as he does not use an 8x10 camera, as I understand.

I shall be glad to make the negative for you of your 500,000 gallon water tank at Glorietta whenever it is ready. I have done a great deal of industrial photography. During the war I was chief public relations photographer at the B29 plant in Wichita Kan. where I did work of every kind.

The charge for this for relinquishing the negative and the trip out there would be \$50.00

If you wish to be do this, I will be glad to execute the commission whenever you let me know that the site is ready.

Very truly yours
